**Sub: Conversion of Garage into a granny annexe**

Dear Sir/Maam,

I have resubmitted a householder application for the project, and I confirm that I have attached the revised drawings for the same.

The proposal is solely for the use of the applicant's elderly mother which does not involve subdivision of the plot. Hence, it would not result in the separation of the annexe from the main dwelling and its use as a separate dwelling. There is adequate parking provided on the site as well.

I trust that the issue for the previous refusal has been addressed and this will enable validation and to grant permission for the proposal. If this is not the case, could you please let me know to enable further adjustments to be made.

Yours Sincerely,

Hanan
