Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	There are so many reasons why this development shouldn't go ahead. The roads are small country roads that are ready suffering with the amount of traffic that needs to use them. The are a main artery between the two motorways and are heavily congested much of the time. The development of the Thames bridge is starting and won't be finished for st least 4 years. This will already cause huge implications for locals and commuters. The development of so many news houses will mean Meopham will no longer be the longest village but will become a town because of the increase in numbers. The birds and wildlife will be horribly affected as this land is their nesting ground and burrow. This area is part of the garden of England, further development will kill the area. The wildlife supports the growth of our fruiting farmland. It'll have a devastating impact on our farmlands and the support we are giving to the country.

Kind regards
