Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This plan will overcrowd an already very densely populated small village that doesn't have the infrastructure to allow for another 100 homes and possible 200+ vehicles. The land and around the driveway is full of wildlife and backs on the the play park meaning large destruction of natural habitats and also a real risk of children coming into contact with workers vehicles when moving through the woodland and into a popular walking route. Slowing access onto the drove way from the development also raises more safety/ security risks to the current residents. A huge pinch point will occur on which massively increases the risk of accidents involving cars and pedestrians around the driveway as the road leads to the park, doctors, social club and the shops. I feel there is no safe way to fix this issue should another 100 houses appear and use this road.

Kind regards
