Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I am writing to confirm my support for the planning application submitted by the applicant for the proposed extension. After discussing the plans with the applicant during a on-site meeting 21st November 2024, I am reassured by their commitment to maintaining the existing boundary line. As agreed, the timber fence and garage boundary line will be reinstated as they currently are, which I fully support. I would, however for record highlight that the current and existing path running the full length between their boundary and my property is not fully reflected in the planning drawings submitted. I trust this will be accurately acknowledged and addressed in the final documents, including the party wall agreement. In summary, I have no objections to the proposal and believe it will enhance the property and its surroundings, provided the agreed existing boundary arrangements are honoured. Thank you for considering my comments, and please feel free to contact me if further clarification is needed.

Kind regards
