Reasons for comment:

Comments:	This application will be a superb addition to the local community in Gravesend. I have been living in Gravesend for the last 35 years, and I admire the multi-cultural environment we have in this town. This proposal will make the community a more vibrant environment with all of the activities they want to do, I am excited for the youth of this town who need more facilities to have a positive effect on their life. We need organisations like this to cultivate a positive environment for the youth of this town to live harmoniously. We all hear about other towns and the levels of crime, including knife crime, disruptive behaviour and abusive youth - this proposal will directly combat this and I couldn't be happier for it. The location is perfect as I know of several families who live in this area from Peacock Street, Wellington Street, Edwin Street, The Grove, who are in walking distance of these facilities, where the elderly and youth alike can go and socialise, learn new skills, and ultimately make Gravesend a better place. There is also a car park within a stones throw away, where people can park and walk 30 seconds to the premises. If we want Gravesend to be a vibrant and successful town, we need more proposals like this and we need our council to support these organisations. Otherwise we will just end up like other towns especially in the south of London where violence and knife crime is on the up and we will regret the lack of support we gave our youth.
