Reasons for comment:

Comments:	I am writing to express my strong support for the application to convert the pub into an Islamic place of worship with community services. As a mother of three young children, all of whom have been positively impacted by the religious education provided by this organization over the past few years, I believe this initiative will greatly benefit our community. The opportunity for children to receive both their local school education and their Islamic education is invaluable. It helps them understand their place in society and fosters an appreciation for all faiths, including their own. Moreover, my children, now older (16+), understand the importance of being positive contributors to their community as Muslims. This new facility will ensure that more children can grow up with this understanding, fostering a generation that is both well-rounded and community-oriented. Furthermore, the self-funding model through the HMO flats above the facility is a responsible and sustainable approach, ensuring the center can operate independently without external funding. This model demonstrates a commitment to financial stability and community service. In conclusion, this project will enhance our community by providing vital services, supporting religious education, and promoting positive community engagement. I fully support this application and look forward to the positive impact it will have on our community.
