Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	I am writing to express my wholehearted support for the application to convert the pub into an Islamic place of worship and community centre. I have personally benefited from the services and support provided by this organization. Having a place of worship and community center so close to the town center is invaluable for many of us. The location is especially convenient for Muslim professionals like myself who work nearby. Being able to walk from my place of work, or park in the public car park, is a significant advantage. Currently, many local Muslims, including taxi and Uber drivers, doctors, and solicitors, have to drive to other mosques, which contributes to congestion. This new center would alleviate that issue by providing a local option within walking distance. Muslims came to this country to contribute positively to society, and we should be able to practice our religion freely and without judgment. The growing Muslim community here deserves the same opportunities and facilities as others. This organization has had a profoundly positive impact on my life, allowing me to live and work in this area while staying connected to my faith.
