Reasons for comment:

Comments:	I am writing to express my support for the application to convert the pub into an Islamic place of worship with associated community services. As a mother of two young children, I believe this initiative will provide immense benefits to our community. As a parent, I want my children to have access to both their local school education and their Islamic education. It is essential for them to understand how they fit into society and to appreciate all faiths, including their own. Our children should have the opportunity to learn about their religion without fear of being treated as outsiders. Additionally, this center will provide a space for Muslim professionals, such as doctors, councillors, teachers, and entrepreneurs, all are example of what we have in this local community, to continue making positive contributions to the local economy and community. Muslim businesses and professionals have already shown a significant positive impact on our area for all faiths and those with no faith, and this place will allow for even more opportunities for growth and contribution. I am a teacher who was raised in both the local schools and also in mosques for religious education and I am now of benefit to the local community teaching primary school children. My religious upbringing just adds a further tool to be able to teach children of all faiths and those with no faith. The imam is someone who already utilises his knowledge and expertise to provide counselling for all faiths in prisons and already spends a lot of time teaching the local community to stay away from violence and not to partake in illegal activities such as drugs and other offences, his contribution to the local community with a specific place of teaching will be of great benefit This project promises to greatly benefit our community by providing vital services,
-----------	--

fostering religious harmony, and supporting the positive development of our youth. I fully support this application and look forward to the positive changes it will bring.

Kind regards
