Gravesham Borough Council  
Gravesend

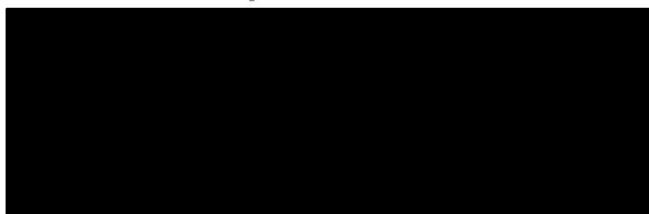

Planning Dept

I have heard that you are considering giving planning permission for 71+ houses to be built on land adjoining Wrotham Road. To date you have not yet decided where access will be for people on this new site to join the Wrotham Road.

I already have to be extremely careful when I go out in our car to get a clear view of traffic coming from Wrotham as outside our property we have two telephone poles with only inches between them. Therefore any access to the new site should be placed at least 100 yards away from our entrance.

Please confirm to me in writing you have receipt of this letter and that my suggestion of at least 100 yards will be adhered to.

Yours faithfully
