Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	This is high grade farmland which contributes to food production, we should be keeping farmland to food production otherwise we are relying on more food imports The GP surgery and NHS services is overstretched as it is so to have additional patients would be catastrophic. The developer is intending dangerous access for cars onto what is a tiny rural lane. This could cause road traffic accidents. This is greenbelt land which has not been released from the Greenbelt boundary. The traffic in the village at peak times is horrendous especially when vehicles, including HGVs use the A227 as a cut through, despite narrow roads. With the Lower Thames crossing will also increase the traffic using the A227. Local side routes are inadequate to support diversions when required. There is every month roadworks on the A227 and it causes major traffic issues especially peak times. So to have extra vehicles using the main routes which would mean more traffic problems and also the pollution this is causing in Meopham. Commuters already using trains at peak times from Meopham & Sole Street are standing. The current bus service is very limited and unreliable.
