Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	The request for retrospective approval must not succeed. The act of occupancy was illegal. Those who occupied the site showed no concern for the flora and fauna of the access road destroying trees and habitat in the process. There will be more destruction of the environment with attempts to widen the footpath from Sole Street to the back of the site as there was last time with quad bikes etc being driven down it. If an application had been made legally prior to occupation it would not have succeeded. This was sieze and hld which must not be allowed to succeed with victory for those who use might or assert occupancy there are laws and processes which must be demonstrated to be upheld and be seen to be enforced. A previous settlement on that land was only removed after a protracted legal process which and at substantial cost to the Borough to dilapidate, do NOT let this happen again, please stop it now while the costs will be low. If this request is approved the site occupation will continue to grow in an illegal manner.
