Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:

I object to all and any part of this application due to the following:
I do not agree with building on green belt land.
Natural environment should be protected.
Merging with adjacent villages should not occur.
Already only two fields and short distance separates Meopham and Sole Street.
Local facilities cannot support influx of 1500 new residents.
Doctors, schools, hospital access already at full stretch.
Proposal will entail increased traffic, congestion, noise and light pollution.
Priority must be given to development on ex-industrial sites in line with stated GBC policy.
This includes proposed new town at Ebbsfleet which has many advantages including established transport hub.
Farmland must not be lost.
We are on a time of great political, economic and environmental instability, more so than since WWII.
So home production is essential.
Local amenities including water supply and sewage disposal are not adequate to support this and the other developments proposed for this area of Meopham.
Flooding and subsidence is already a serious risk to the area which would be worsened with these developments.

Kind regards
