Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I can't begin to understand how a development of this magnitude could be feasible with so little existing infrastructure. Mainly how could the A227 possibly cope with thousands of extra cars daily as it's only a winding country road or are there plans to build a dual carriageway to connect to the A2 or M20? We are repeatedly told every summer of water shortages yet suddenly we can find water and sewage capacity for all these homes which I don't believe is possible. Also is the existing healthcare ie Minor Injuries Gravesend and Darenth Valley Hospital capable of supporting this massive increase in population I believe not

Kind regards
