Reasons for comment:

Comments:	It's intolerable to think that a planning application of this magnitude has been made. It is not possible to ignore the other proposed applications for development in Meopham, which overall will increase the size of the village by at least a third and take away valuable green belt farming land. Countryside that will be lost forever. Meopham is currently a quiet rural countryside village, which the population enjoys as an alternative to living in places such as Gravesend. It won't stay like that with all these extra proposed houses. The comparative peaceful and rural nature of the village could well suffer from a substantial increase in unsociable behaviour. This area combining the A227, Green Lane, Camer Road, Camer Parade and Longfield Road is the subject of all the proposed planning applications. This application for 725 dwellings will inevitably mean some 1000 extra cars in this site alone, not to mention the added numbers of cars on that will be seen from the other 3 proposals in Meopham, which will add a further 1,500 cars to the area. Also how will local services be impacted such as doctors and schools and parking, which is already affected badly by congestion, The loss of green belt countryside, valuable farmland and the tragic loss of valuable habitat for so many creatures is solely destroying and the concreting over such special land is unforgivable.
-----------	--

Is this application really being taken seriously, do we really want the uniqueness of Meopham to be destroyed, causing so much anxiety to the present population. Please turn aside these proposals

Kind regards
