Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	There is no requirement for 725 houses to be built of which there will be apartments up to 3 storey. This does not fit in with the characteristics of houses in Meopham. There is definitely no need for them. There is evidenced no infrastructure, no doctors, no dentists, no additional schools. The roads, railway station and old bridges are not fit to accommodate the extreme volume of traffic. The building will cause pollution, light and noise and high volumes of air pollution that will cause poor air quality. This will become a threat to the residents of Meopham and impact on the quality of their lives and cause health issues particular respiratory conditions. The build will be on grade 2 Agricultural, this land is much needed for arable crops and to support food security for this Country. Nothing has been taken into account for flooding - this build will damage flood mitigation - open land acts as a carbon sump. We have a duty to protect our wildlife, fauna and trees. We are in jeopardy of killing off and displacing our wildlife. We need to protect the countryside and our green belt and green fields.

Kind regards
