Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This is a greenfield site. There is an injunction preventing this development. The work they are asking for planning has already started contrary to planning law. This development will seriously damage diversity of the wildlife including rare birds. The development has already damaged various trees and plants in the surrounding area without any care and so this would be worse. There is no statutory connection to drainage, water or gas. Light pollution is already happening in a rural area and should not be allowed. It is not in keeping with the local environment or neighbourhood

Kind regards
