Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	My objections reflect my concerns that ANY development of this size needs to address the impact on current inhabitants of Meopham. This application fails to do that. The site is designated Green Belt and is currently used as Grade 2 Agricultural Land. Despite a contrary claim, Gravesham Borough has NOT designated the site as suitable for development. Although the application appears to be attempting to provide the necessary infrastructure it fails - just giving us a Primary School and some recreational facilities. What about GP Practices, increased traffic on already congested roads and further air pollution? The proposal to introduce a One-way section to Norwood Lane is totally unacceptable; it must remain a through route between Wrotham Road and Camer Road. [If necessary create a NEW road parallel to it.] My conclusion is that it would be almost impossible to design and justify and
-----------	--

major development in the Meopham Area without a radical improvement of ALL Infrastructure.

Kind regards
