Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:

I object to the revised planning application for a change of use from a pub to a mosque. The noise that will be created at all hours including loud prayers, traffic from cars and people waking to and from the mosque and congregating on the street throughout the early hours in the day and to midnight would be horrendous.

This is a street where people living here cannot already park on our street and this would be a nightmare due to the 65+ people at different prayer time's which would amount to hundreds of people being in the street every day and night. This is not a right place to have a mosque when the infrastructure is not in place such as a car park for the mosque or noise minimisation such as sound proofing and being away from a residential area.

I object to this revised application as I do not believe anything has significantly changed since the original application and the same decision should be made to not approve the application.

Kind regards
