Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Dear Sir, After many previous applications and subsequent objections to the developmenet once again I find myself objecting to this latest application. When we moved to Sole Street some 40 years ago this land was a meadow with a hay barn. For the last 20 years or more we have seen a gradual increase to develop this site destroying an area of outstanding natural beauty. The grassy meadow gradually got destroyed by tarmac to accommodate fixed mobile homes and caravans. This application represents further destruction of the land and has already shown to be prepared for tarmac to be laid with, I assume, the assumption that this application will be approved. The access to this development is via a single track road that cannot accommodate an increase of traffic generated by a large scale development. One would also assume that the travellers will frequently use their caravans to go about their business further causing disruption to regular users of the lane. There are now three entrances to this site, two of them on blind bends, accommodating the three distinctive plots divided by 6 ft fencing, which is contradictory to the openness of the green belt. This development does not create any benefit to the village of Sole Street and White Post Lane. However if the applicants want to settle in Sole Street to access amenities like schools and doctors there are always properties for sale in the area that would give them the benefits they require and still be free to travel as they wish.
