Reasons for comment:

Comments:	<ol style="list-style-type: none">1. This site has not been previously developed and therefore does not meet any criteria for "grey belt"2. Impact on air pollution3. Safe access onto such a busy main artery of Kent Highways will be impossible. The site will have to directly lead onto the A227 adding additional junctions4. There is no efficient transport facility. The bus service along the A227 is every hour and a half and inadequate for the existing housing. Subsidised service will be needed for the additional development. 100 homes equals some 200+ vehicles regularly accessing a dangerous road, probably at peak hours when traffic on the A227 is constantly "heavy".5. The current social infrastructure is already stretched with limited opportunities for expansion. Schools and medical facilities only just meet the requirements of the existing housing.
