Reasons for comment:

| | |
|-----------|--|
| Comments: | <p>Not only will it ruin the beautiful village iv called home since i was 2, it will cause chaos for everyone else who also currently calls culverstone home. The extra traffic and population this will cause, will make it impossible to get into our local schools, shops and facilities. This will cause Wrotham road to become gridlocked. This area will no longer be the quiet and happy village iv known and loved.</p> <p>My children are already struggling to get into the local schools, even with being so close due to the amount of people in the area. Adding on another 100 houses will make it almost impossible.</p> <p>We currently struggle to get fuel or in our the local shop near the proposed development, due to the continuous queues out onto the main road. There has been many close calls with cars crashing into one another, adding another 200 cars with what 100 extra houses will bring, will no doubt create crashes.</p> <p>We work hard to be here and this has become our sanctuary of beautiful countryside. Why ruin it with more homes the local community does not want. We choose to be here for the fields and the wildlife and the space, not for continuous houses, concrete and dying out wildlife that will be affected with building on their homes and next to ancient woodlands.</p> |
