Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Further to my previous objection, I wish to raise additional concerns regarding the loft extension. Having observed the development from my property, I consider the loft extension to be significantly larger and more visually imposing than originally appreciated. It has materially increased overlooking into my garden and has substantially affected my sense of privacy and enjoyment of my property. I am also concerned that the full extent and impact of the loft works have not been adequately represented within the submitted application documents. Given the apparent discrepancies between the plans and the development visible on site, I respectfully request that the property is inspected and that the application is assessed based on an accurate representation of the works undertaken. I ask that particular consideration is given to the impacts on neighbouring amenity, including overlooking, loss of privacy and the overbearing nature of the development.
