

Application: 20240284

**TOWN AND COUNTRY PLANNING ACT 1990
THE TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(ENGLAND) ORDER 2015 (AS AMENDED)**

NOTIFICATION OF GRANT OF PERMISSION TO DEVELOP LAND
--

To: **Mr Kuldeep Singh Kandola
C/O Mr Tony Angeletta
11 Joydens Wood Road
Bexley
Kent
DA12 5QF**

TAKE NOTICE that the **GRAVESHAM BOROUGH COUNCIL**, the Local Planning Authority under the Town and Country Planning Acts, has **GRANTED PERMISSION** for development of land situate at:

**12 Brenchley Avenue
Gravesend
Kent
DA11 7RQ**

and being **Demolition of existing dwelling house and erection of new 4 bedroom dwelling house.**

Your application dated 28th March 2024 is permitted subject to the following:-

1. The development hereby permitted shall be begun not later than 3 years following the date of this permission.

Reason: In pursuance of Section 91 of the Town and Country Planning Act 1990, as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out in accordance with the following approved plans and particulars:

Application form

Drawing no. KK/01 (Site Location Plan)

Drawing no. KK/02A (Existing and Proposed Site Block Plans)

Drawing no. KK/03 (Existing Plans)

Drawing no. KK/04 (Existing Elevations)

Drawing no. KK/05A (Proposed Ground Floor Plan)

Drawing no. KK/06A (Proposed First Floor Plan)

Drawing no. KK/07A (Proposed Front Elevation)

Drawing no. KK/08A (Proposed Side Elevation Facing No. 10 Brenchley Avenue)

Drawing no. KK/09A (Proposed Rear Elevation)

Drawing no. KK/10A (Proposed Side Elevation facing No. 14 Brenchley Avenue)

Reason: For the avoidance of doubt and in the interests of proper planning.

3. Prior to the commencement of any above ground works, details and/or samples of all external facing materials to be used on the dwelling hereby approved, including Juliet balcony details, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved details.

Reason: In order to ensure an acceptable standard of development upon completion, in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

4. Prior to the commencement of any above ground works, full details of hard landscaping and surface finishes for the front garden, including details of a porous car parking area and any screening or boundary treatment by walls, fences or other means and any steps. The scheme shall be constructed in accordance with the approved details and completed prior to the first occupation of the dwelling hereby permitted.

Reason: In the interests of visual amenity and highway safety in accordance with Policies CS11 and CS19 of the Gravesham Local Plan Core Strategy 2014.

5. Prior to the commencement of any above ground works, details of a soft landscaping scheme for the front garden shall be submitted to and approved in writing by the Local Planning Authority. The approved soft landscaping scheme shall be implemented within the first planting season following the development first being brought into use. Any trees or plants that die, are damaged, removed or become diseased within five years from the date that the development is first brought into use, shall be replaced with a species of a similar size and species during the next available planting season.

Reason: In the interests of visual amenity and to ensure a satisfactory standard of appearance upon the completion of the development and to ensure no net loss of biodiversity in accordance with Policies CS12 and CS19 of the Gravesham Local Plan Core Strategy 2014.

6. The applicant shall undertake a watching brief during construction in case any contamination issue is encountered. If during development any contamination is found, the Local Planning Authority should be informed as soon as practical and the work shall not continue until written agreement is provided by the Local Planning Authority as to the appropriate measures to be taken to resolve the matter and they are satisfied that those measures have been carried out.

Reason: To prevent harm to human health and pollution of the environment in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

7. Notwithstanding the provisions of Article 3, and Part 1 Classes A and G of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, or any provision equivalent to those Classes in any statutory instrument revoking and re-enacting that Order, with or without modification, no additional window, door or other form of opening, other than as shown in the approved drawings, shall be formed in either flank elevation of the dwelling hereby permitted.

Reason: In order to protect the amenity and privacy of the occupants of the neighbouring properties in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

8. The flat roof area of the single storey rear element hereby permitted shall not be used as a balcony, roof garden or similar amenity area at any time.

Reason: In the interest of neighbouring privacy in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

9. Notwithstanding the provisions of Article 3 and Classes A, B and C of Schedule 2 to Part 1 of the Town and Country Planning (General Permitted Development) Order 2015, as amended (or any provision equivalent to those classes in any statutory instrument revoking and re-enacting that Order, with or without modification), no enlargement, improvement or other alteration of the dwelling hereby permitted shall be carried out, including any alterations to the roof, including the installation of dormers and rooflights.

Reason: In the interests of neighbour amenity in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

10. All windows on both flank elevations of the development shall be fixed shut and obscure glazed with the exception of any top hung fan light window that has a sill height of not less than 1.7 metres above the internal finished floor level of the room that it served. The windows as permitted pursuant to this condition shall be installed in accordance with it prior to the first use of the room the window serves and shall thereafter be maintained in accordance with this condition at all times.

Reason: In the interests of neighbour amenity in accordance with Policy CS19 of the Gravesham Local Plan Core Strategy 2014.

INFORMATIVES:-

1 CODE OF PRACTICE FOR CONSTRUCTION/DEMOLITION SITES WITHIN THE BOROUGH OF GRAVESHAM

This Code of Practice relates to all building sites in Gravesham and is given to ensure best practice is achieved equally throughout the borough. All aspects of the code apply to every building site and will only be altered on an individual basis if there are found to be special circumstances on that particular site. Any amendment made will be in writing by an authorised officer of the Environmental Health Department. The following circumstances are given where consideration will be given to a variation in the Code of Practice:-

- a) Where occupiers of noise sensitive properties are unlikely to be affected by the works.
- b) Where the work cannot be carried out during the hours specified because of the requirements of another authority such as the emergency services, utilities, traffic management authorities etc.
- c) Where the site location is isolated or where the works are in a mainly commercial/industrial area with few residential properties.

In all the above cases the onus will be on the applicants to provide written justification as to why the code should be varied. When making such a statement the applicant must include the following information where appropriate:-

- i) Location, nature and duration of works.
- ii) Measured/predicted noise levels and background levels.
- iii) Measured/predicted vibration levels.
- iv) Proximity and numbers of residential properties.
- v) Evidence of public consultation/information to persons likely to be affected.
- vi) Written evidence from the appropriate authority (in instances where b) above applies).

In order for adequate consideration to be given by this Council to a request for deviation from the Code of Practice, any proposal must be provided in writing to the Environmental Health Services Manager at least fifteen working days prior to the works starting.

On developments where construction/demolition is undertaken on contaminated land, work will be required to be carried out in a way which will be specified within conditions of the site's planning approval.

On the site itself, best practicable means as defined in section 72 of the Control of Pollution Act 1974 to reduce noise to a minimum shall be employed at all times.

Compliance with BS5228 Part 1:1997 'Noise control on Construction & Open sites' is expected as a minimum standard. This requires amongst other things that all plant and machinery in use shall be properly silenced, maintained and used in accordance with the manufacturer's instructions.

Criteria and procedures for vibration control are assessed using different parameters as follows:

- * Vibration Dose Values (VDVs) are used to protect the occupants and users of buildings from disturbance. (VDVs are defined in BS 6841 and their application is discussed in BS 6472).
- * Peak Component Particle Velocity is used to protect buildings from risk of physical damage. These are assessed in accordance with BS 7385.

Best Practicable means shall be used to control vibration levels so that the following Vibration Dose Values measured on a normally loaded floor in accordance with BS 6472:1994 are not routinely exceeded as a result of works.

Building Type	Period	VDV (ms ^{-1.75})
Residential Buildings, Educational Establishments, Offices and similar	Normal working hours	0.4
Commercial	Normal working hours	0.8

Best Practicable Means shall be used to control Peak Component Particle Velocity measured at the base of any building in accordance with BS 7385 does not routinely exceed a level of 10 mm/s.

In instances where complaints of vibration are received within any adjacent property then the contractor shall immediately take all measures necessary to demonstrate that the vibration levels are below the limits shown in the paragraphs above.

Where the results of any monitoring indicate non-compliance with the limits stated above, the contractor shall immediately change the method of working, and/or the plant being used. Prior to the work recommencing, the contractor shall satisfactorily demonstrate that the new arrangements satisfy the vibration limits.

DUST

Dust suppression techniques shall be used on site where significant quantities of spoil or fine aggregates are stored and/or where the site location is such that it is likely persons living in residential properties are going to be affected by wind blown dust.

Spoil temporarily placed on site shall be located as far away from sensitive properties as possible. The height of stored material shall be kept as low as is practical and water sprayed onto the surface of the piles shall be used as appropriate to keep the surface damp.

Where longer term storage of fine aggregates and other potentially dusty material is necessary, suitable storage facilities shall be used where practicable in order to screen these materials from the wind. This stored material shall be located so that it is as far away from sensitive properties as possible and measures to prevent wind blown dust shall be adopted. These shall include:-

- * keeping the height of stock piles as low as possible,
- * using water sprays as appropriate whilst minimising the production of excessive runoff,
- * minimising the re handling of dry construction materials and spoil,
- * keeping the loading drop heights to as low as possible,
- * where appropriate applying the surfaces of roads on site with water sprays as necessary and/or using wheel-washing facilities.
- * all materials transported to and from the site shall be conveyed by suitable vehicles in enclosed containers or using other adequate wind shielding measures such as sheeting.

The person responsible for the site shall keep on site a daily log book which will be available to visiting authorised officers and shall list the following:-

- * the conditions on site,
- * whether any wind blown dust was visibly coming off the site,
- * what control measures were carried out, and
- * what the results of these were.

COMMUNICATION

It shall be a matter of priority for a contact name and telephone number to be set up in order to enable ready two-way communication and contact with the council and local residents. In cases where work likely to cause a disturbance is to be carried on out of normal working hours, the phone line would be manned whilst the work is ongoing.

LIGHTING

Where security and/or site lighting is used, this shall be located and directed or screened so that it does not cause undue intrusion to adjacent occupied residential properties, or sensitive areas, or constitute a road hazard, and shall be chosen to limit light pollution effects such as "glow in the sky".

2 DEVIATION FROM APPROVED PLANS

It is possible that any proposed deviation from the approved plans could be classed as a 'material' change requiring a further application/permission. In the event that any change is proposed, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

3 BUILDING REGULATIONS CONSENT

The granting of planning permission is independent from the granting of Building Regulations consent (which may, or may not, be required). In the event of a change to the scheme granted planning permission being required to satisfy the Building Regulations, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

4 LIGHTING

Artificial lighting can cause a statutory nuisance under the Environmental Protection Act 1990. It is important that the applicants are not permitted to install external lighting that illuminate anything other than the ground within the curtilage of the new properties in order to assist in preventing a nuisance from occurring (which would be most likely if the bedrooms on neighbouring properties are illuminated).

5 SMOKE CONTROL

The proposed development is situated in a smoke control area. As such, only authorised smokeless fuels as listed in the Smoke Control Areas (Authorised Fuels) Regulations 1991 shall be burnt or fireplaces/appliances exempted by Smoke Control (Exempted Fireplaces) Orders shall be utilised. Exempt appliances are appliances (ovens including pizza and tandoori ovens, wood burners and stoves) which have been exempted by Statutory Instruments (Orders) under the Clean Air Act 1993. These have passed tests to confirm that they are capable of burning an unauthorised or inherently smoky solid fuel without emitting smoke. They must be fitted and used according to manufacturer's instructions and they can only be used for the fuel for which they are designed. When purchasing fuels and fireplaces the applicant should clarify with the vendor their suitability with respect to use in Smoke Control Areas. For further information, including confirmation that an appliance and/or fuel is suitable for use in a smoke control area, the applicant should contact the Council's Regulatory Services air.quality@gravesham.gov.uk

6 DRAINAGE/SEWERAGE

The foul sewage shall be removed by means of the mains drainage system and not by the use of non-mains sewerage systems, unless connection to the drainage system is not reasonably practicable.

7 STATEMENT OF POSITIVE AND PROACTIVE APPROACH TO DECISION-MAKING

In accordance with Article 35 (2) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended), and paragraph 38 of the National Planning Policy Framework (NPPF) 2023, the Local Planning Authority has approached the assessment and determination of this application in a positive and creative way and, where appropriate, has worked pro-actively with the applicant to secure a development that is sustainable and that improves the economic, social and environmental conditions of the area, and that is in accordance with the Development Plan for the area.

NOTIFICATION TO APPLICANT

APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If this is a **householder application*** which has been refused and you want to appeal against your Local Planning Authority's decision then you must do so within **12 weeks of the date of this notice**.
- For all other applications, refused or permitted, if you want to appeal against your Local Planning Authority's decision then you must do so within 6 months of the date of this notice.
- **For further information regarding Appeals and to make an application please click the relevant link:**
<https://www.gov.uk/appeal-householder-planning-decision>
<https://www.gov.uk/appeal-planning-decision>
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

***Householder applications**

These are:

- (a) applications for planning permission for development of an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, or
- (b) an application for any consent, agreement or approval required by or under a planning permission, development order or local development order in relation to such development

but does **not** include –

- (i) an application for change of use;
- (ii) an application to change the number of dwellings in a building.

PURCHASE NOTICES

If either the Local Planning Authority or the Secretary of State for the Environment refuses permission to develop land or grants it subject to conditions, the owner may claim that he/she can neither put the land to a reasonably beneficial use in its existing state nor can he/she render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
