Dear Mr Bonthron

2025/0764 Land South of White Post Lane

Thanks for your time on site last week. As promised, we have collated the personal details of the occupants of the plots, numbered 1-4 starting at the plot closest to White Post Lane;

All the plots are occupied by extended [REDACTED].

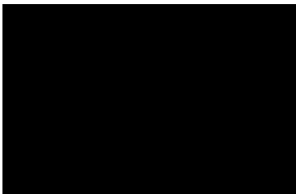

The young males generally work in roofing, groundworks and landscaping trades. Some of the men work together on jobs whilst sometimes they will all travel for several weeks at a time to places such as Suffolk, Essex and the west country.

The occupants are of Irish Traveller ethnicity, and many of the occupants have local links to the area, with family members in Ridge Lane and adjoining plots. Whilst culturally, they will sometimes travel back to Ireland, they will also attend the traditional horse fairs in England, notably Appleby, Stow-On-The Wold amongst others.

For the younger men, the majority of their time is spent travelling for economic purposes.

We hope this assists with your consideration.

Yours Sincerely

Simon McKay BSc MA MRTPI
Director, SJM Planning Ltd
