About this product

These attractive nestboxes are manufactured from WoodStone which is a mix of concrete and FSC certified wood fibres. Unlike a traditional wooden nest box, these boxes will not rot away or deteriorate and are guaranteed for 10 years. This robust material safeguards against attacks from predators such as woodpeckers, cats and squirrels, whilst also providing a well insulated interior with a more consistent internal temperature than an ordinary wooden box. This is especially important during the breeding season and ensures that young birds have a greater chance of survival. Nesting sites have become rare for cavity nesting birds due to changes in woodland management practices, so you can provide much-needed space for rearing chicks and birds that are roosting overwinter with these durable, long-lasting nest boxes.

These 32mm hole nest boxes are suitable for blue tits, tree sparrows, house sparrows, great tits, crested tits, nuthatches, coal tits and pied flycatchers. The best height for your nest box is between 1.5m and 3m high, and should be sited higher if your area has a particularly high cat population.

These nest boxes have a removable front panel for easy cleaning. For more information on this, take a look at out The NHBS Guide: Where to hang and how to maintain your nest box (https://www.nhbs.com/blog/where-to-hang-and-how-to-maintain-your-nest-box).

Specification

- Dimensions: 31cm x 20cm x 20cm (H x W x L)
- Entrance hole diameter: 32mm
- Weight: 6.9kg
