Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	The area is high risk of causing flooding along the main road and lower in the valley. When we have heavy rain the main road becomes a river and building a 100 homes there is going to take so much of the land that the rain seeps into now. Where is all that going to go? The developers aren't concerned about that because they are only building and not living there Also on an extremely busy road which is difficult to pull out on now without having extra cats added to it

Kind regards
