Reasons for comment:

Comments: The caravans have already been moved in and caused significant damage to the surrounding land and roads. Including criminal damage to private land . These actions were all taken under the cover of darkness, clearly they knew what they were doing was illegal. This has caused significant distress to local residents, not to mention there is already an injunction on the land also.

As per other sites in the area, even if planing is accepted more caravans will likely be added illegally. Again previous cases show that travller sites generate alot of rubbish that is not diposed of correctly or legally, often burning rubbish. This, on top of felling trees that are hundreds of years old (and leaving all the debris in the road making it dangerous) plus dumping caravans (which subbsequently somehow caught fire) are all reasons to refuse this application. Our greenbelt countryside needs to be protected not abused.

Kind regards
