Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: Object strongly to this application. There is already an injunction on this land to prevent any residential use. There is no end date to this Order and it was issued by the Claimants Gravesham Borough Council against 12 Defendants. Defendant 12 is PERSONS UNKNOWN.

Over the last 6 weeks Whitepost lane has been destroyed by the persons who have moved onto this land and should be prosecuted as a result. Trees that have been growing for decades have been ruthlessly cut down and left on the side of the road causing residents of sole street distress and a lot of inconvenience. The road has been shut a number of times illegally and these persons residing there have been aggressive towards the residents in the village. The lane is full of rubbish and an old caravan was even dumped in the lane and set on fire. To think you can move into any village within the uk and put a planning application to live there is a shocking thought. The residents of sole street paid a lot of money to be part of the community and continue to pay large council tax contributions. The council need to support the residents of the village and stop allowing this to happen and allowing our village to be destroyed.

This application should never have been allowed to have been submitted. I ask that the Council enforce the Order of Mr Justice Saunders (Court reference HQ09X02792) made on 2 July 2009. I also ask for the 7 previous refused applications to be considered in conjunction with this one and that any outstanding applications or appeals be refused in line with the Order.

There are buildings already on the site and persons are clearly residing there. They have destroyed the field and surrounding area, disrupting wildlife and residents with regular fires and littering. Enforcement action should also be considered for the current and on going breaches and destruction of the area in question.

Kind regards
