Special colours are available on request and are subject to minimum orders. Please [contact](#) us with your RAL or BS

colour reference to discuss the options available to you in more detail.

Notes:

7 digit RAL references are RAL Design references

** Available for Flashings, Trims & Fabrication only*

Disclaimer:

All colours and finishes shown are web representations. Although we make every effort to show our products in their original colours, due to photography and individual monitors, actual colours may vary. BS and RAL colour references represent the nearest colours and are not an exact match to the colour coating. Metal finishes are not colours they are the natural colour of the material which can vary, images shown are representative as colour coatings and metal finishes can differ from batch to batch.

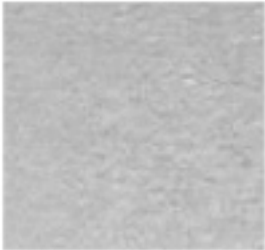

Custom powder coated colours

If you require a colour that is not available in pre coated material we have the ability to powder coat sheets and flashings to RAL numbers. Prices and lead times vary based on the colour required and the quantity and size of the sheets or flashings. Please call or [email](#) our sales team on 01384 273811 to discuss your requirements in more detail.

Custom Order Metal finishes

We can also offer special architectural finishes based on **larger orders over 2,000m²**.

Please note: These are natural metal finishes not colours. Our machinery has the ability to process these materials, but we do not keep these materials in stock and we cannot provide samples.

			
Aluzinc	Stainless Steel	Copper	Corten Weathering Steel**

Projects over 2,000m² considered. Please [contact](#) our sales office to discuss your requirements.

***Cor-Ten weathering steel oxidizes to form a protective coating with a rust like appearance.*
