Reasons for comment:

Comments:	<p>The location for this sort of development is inappropriate, the A227 is already a busy road, particularly at the Camer parade where traffic from/to Longfield and Dartford exits / joins the A227. The location is opposite a primary school, where concerns over the safety of children has been an ongoing discussion for many years due to the number of HGV and private cars on the A227.</p> <p>The analysis of the traffic flows and the additional traffic flows from the development do not take into account the specific nature of the development nor the presence of other housing plans in the vicinity. The traffic projections in the Transport Assessment appear very low and unlikely to represent the real word situation.</p> <p>This proposed development is in green belt land and no case has been submitted to address the exceptional circumstances which would allow the project to proceed. it is the wrong development in the wrong place and should not be approved.</p>
