Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to this application . Firstly the house design isn't in keeping with the character of the village which is gradually being eroded away. The occupants of Negril will suffer a substantial loss of light due to the close proximity of the house. A 3 block garage and 2 spaces means 5 cars entering and exiting a very busy A227 near to the school which already suffers congestion issues at peak times. Trees which appear on old boundary maps showing them to be hundreds of years old have been felled without permission prior to this application being passed. In previous applications the trees have been shown to remain on the plans?? The design of the house isn't in keeping with the properties that are in close proximity . There aren't any features that echo designs of the neighbouring properties . I object strongly to this application.
