Reasons for comment:

Comments: Currently this road services the 17 dwellings within the driveway, the road itself is single traffic with a couple of spots for vehicles to cross. Currently it can be challenging on a day to day basis as we have all evolved with internet shopping & food delivery etc, more houses will only exaserbate the situation.

I live at the entrance to the Drive , I have to raise my concerns firstly for the safety of motorists & pedestrians .
As we have no pathway for pedestrians & now have several children living here . Also the visual aspect from entry & exit is impaired.
The idea of using this road as if it as a main is unthinkable, over the years I have personally witnessed many near misses, also damage to my property.
I am extremely anxious regarding the safety of my house with the industrial machinery ,materials etc which will require access to this restricted drive .
I believe highways expressed concerns regarding the pillars at the entrance saying removal of them is beneficial.
I would like to inform you These pillars are privately owned by myself & a neighbour & not part of drive .

Kind regards
