LV21 MOORS AT THE HEART OF GRAVESEND

After an extensive Arts Council England, Gravesham Borough Council and Kent County Council supported research and development project, working with local artists, communities and organisations, LV21's crew are pleased to announce that the historic lightship is to stay in Gravesend and has now relocated to new moorings at the heart of the town at St Andrew's Quay.

LV21 is closed while a suitable gangway is built to allow public access. The crew look forward to welcoming visitors onboard again later this spring. In the meantime, look out for LV21 events and art projects ashore.
