☒ Yes

☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Proposal calls for a new drive to be constructed in block paving. Works to consist of excavation to required drive depth and infill of necessary material and will finish with block paving.

Does the proposal consist of, or include, a change of use of the land or building(s)?

Front Drive

Is the proposed operation or use

- ☒ Permanent
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The application site sits opposite a public drive which is directly in front of the propose drive. Proposal will enable the owner to obtain use of their Electric Vehicle charging point located on the front of the property but to also enable additional parking within the existing car park for the community. The property already benefits from photovoltaic panels with battery storage, so this additional renewable item will reduce their carbon footprint further.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☒ Yes
☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- ☐ The agent
☒ The applicant

It is an important principle of decision-making that the process is open and transparent.
