Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	We strongly object to the plans We can't believe that it would ever be considered, As it's on a busy main road parking is a major problem disabled children would not benefit from anything on a busy junction, I would of thought children that need lot of care would be better situated in a quieter area with calmer surroundings, I would be really worried if they was to leave the property without supervision and the volume of traffic and busy with school children from St. Georges,this would not be a calm and safe environment Plus we are having enough problems with the development of the cottages opposite us which is such an eye saw not one part of the build is in line with all the 1930s houses so sad to see our area becoming a building site and now a home which is definitely not suitable for disabled children.
