Reasons for comment:

Comments:	I am writing to object to the application to make the land of south white post lane into a use of land 8 mobile homes, turning the land into a traveller site. I strong believe the area of white post lane and surrounding lanes are not built to support this application. Previous caravans have gone into the area and resulted in a number of trees being destroyed and brought down due to the width issue. Furthermore the roads around and the road white post lane itself is not built to support the extra vehicle traffic that this site will result in. It is a country narrow road that cannot accommodate the extra use that these caravans/mobile homes will produce. On another note I also believe that it should be Gravesham Borough Councils responsibility to find space/housing for the traveller community and this should be in an area that is suitable and not likely to ruin the existing areas and roads. Sole street is only a small hamlet and cannot accommodate this. Existing residents have also applied for planning permission on similar land types and have been turned down therefore why should this application be the exception. In a practical sense there is no sustainable application on a sustainable site, no legal connections, no facilities, no public transport and no travel routes. The area in question and some street is an agricultural green belt land and there is not 8ft fencing surrounding the site with electric gates. This has altered the aspect of the countryside which is the reason the residents of some street live here. There was also no permission sought for these fences and gates and other work going on for the past 6 months showing a complete disregard for procedure. The owners have also disregarded the waste that has been accumulated through this in neighbouring land. This shows a lack of respect for the quaint, countryside area they are suppose to be respecting.
-----------	--

There's also an enforcement order covering this land which has been ignored and an injunction was served in 2008 to the unknown parties.

Utility pipes have been illegally put in through woods across the road through a shallow trench. I know for a fact they have not requested or sought the owners permission for this and therefore trespassing and therefore once again showing disregard for law and order

Kind regards
