Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I object to the proposed planning application.

The proposed longer extended front garage/habitable room extension would have an adverse effect upon the character of my property. That would generate additional excessive noise, vibration and effect quality of life.
(Permission not given for any extended use of my external sidewall).

The proposed rear single storey will be linking to the new garage extension and be adjacent at close proximity.
This would generate excessive additional vibration and noise effecting quality of life.

The existing extractor outlet situated on rear sidewall would be blocked off and external wall be inaccessible.

Close neighbouring excavation
an concern.

Access for future maintenance and drainage would be a problem and issue for my external front and in rear sidewall.

Kind regards
