Dear Sir/Madam,

PROPOSED EXTENSION TO 1 PROVIDENCE COTTAGES
REF 2021 1080

Thank you for your recent letter [undated] in respect of the above.

I confirm I edged the sites in red marker pen but accept that red and pink can be confusing. I will try a red pencil and trust this will cover the points raised.

Regarding the copy of the Deed plan, I have added a Scale Bar and edged the site as best I can in red pencil. I trust this is acceptable.

The dwelling is a terraced house [end of terrace] and has only 3 elevations: one side and a front and rear elevation [Dwg No 21/W/4 refers]. A 'Party Wall' separates 1 & 2 Providence Cottages. A mid-terrace has 2 elevations, a front and rear only. The side elevation on the north side of No 1 is annotated 'As Existing' and 'As Proposed'. The rear elevation likewise [You confirmed that you have this drawing on file and do not need it again].

Regarding Dwg 21/W/1A: I enclose another copy of the drawing with the block plan and site plan edged in red [pencil]. I have annotated the site plan 'As Existing' and block plan 'As Proposed' as requested.

I also enclose another copy of Dwg 21/W/5 and have added a note 'No changes to front elevation' and also edged the existing block plan in red [pencil] as requested.

I trust this satisfactorily clarifies matters and look forward to hearing from you.

Yours faithfully,

P Thomas
