

Dear Kelly,

I hop[e the site visit went well.

I attach the following plans. Harp Farm Swale.

Plot 153 car parking. Sight lines of 43m x 2.4m is not shown.
Pedestrian sight lines not shown. But approved by Swale and KCC.

Also this tracking drawing. Shows parallel parking alongside each other. The blue circles.

No 2m x 2m sight lines shown. No 43m x 2.4m sight lines either.

KCC and LPA's should be consistent.

Please add these to the file.

Although they are not within Gravesham's area they are in Kent. The Kent Design Guide is used.

I could find many large developments in Gravesham that have similar lack of sight lines. But I rest my case
Unless it goes to appeal.

Regards
