Caution: This email was sent from outside of the organisation. Do not click on links or open attachments unless you recognise the sender.

Dear Ms Cue,

HireHeat Ltd occupying the application building today (Sunday). A number of other vans, low backed lorries etc also in the yard today.

Clearly not intending to reduce business activities to between 8.00 to 17.00hrs Monday to Friday. The website notes it is a 24/7 company providing support and boilers at all times.

Dear Ms Cue,

You may be aware that the local fire brigade building safety team have been in contact with Ian Brown, GBC enforcement officer. At present there is a significant fire risk with the applicants building being used for heavy industrial use with its close proximity of around 1 metre from the Coach House.

I have attached some photos that will help in terms of the context of the applicants building in terms of the proximity of neighbouring residential property and also it's poor condition.

Also we can see that there has been a consultee comment but this is not published on the planning portal. Can you please advise if we will be able to view all consultee comments?

Regards

Good afternoon,

[REDACTED] please find attached a detailed letter of objection to planning application 20240099 for change of use of an agricultural building to a light industrial use under use Class E(g) at Oakleigh Farm

It would be greatly appreciated if you could confirm safe receipt of this email and the letter.

Kind regards,
