Dear Katherine,

Thank you for consulting us on the submission of the field evaluation report (Brook Archaeology Ref. BAL23-074) which I would be happy for you to formally approve. I note that it is referred to on the planning portal as a Watching Brief report but this is the report of the first stage field evaluation trial trenching of the site. The work has demonstrated that the development of the site is unlikely to have a significant archaeological impact and therefore I recommend that part (ii) of Condition 6 attached to planning permission reference number 20210514 can be discharged in full, without the need for any further mitigation fieldwork.

I hope that this is helpful.

Yours sincerely

Casper
