Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Whilst I understand the national demand and crisis for housing this proposed planning can not be allowed. We have so many new developments of new houses all around us and the fields that give our wildlife are being destroyed for more housing. Other locations are more suitable and would not cause such devastating damage to our green fields. The village can not cope with the amount of traffic as it is let alone adding the amount of cars another 100 plus homes would add. Our local hospital can not cope with the current population let alone adding more homes to add to the situation. The future children need green spaces not new homes on green land. We have the old toll gate hotel siting on land that could be used for new houses and various other sites that would not destroy our green fields. Once these fields are built on then they are destroyed for good. An alternative site must be sought and our green fields left for our children's future.

Kind regards
