Reasons for comment:

Comments:	I am a young person who lives in the area, and I would like to share my concerns about the proposed development. One of the things that worries me is that there are not enough buses. Lots of young people rely on buses to get to school, meet friends, take part in activities and, when they are older, get to work. If more homes are built, I think there needs to be better public transport as well. I am also concerned about jobs for the future. As young people, we want to know that there will be enough opportunities in the area when we leave school or college. It is important that development brings good jobs and opportunities for local people. Another concern is the impact on nature. There are already lots of animals, birds and green spaces that make our area special. I think we should do everything we can to protect wildlife and nature rather than lose more countryside. Finally, I am worried about flooding. Some areas already struggle with heavy rain and I am concerned that more building could make this worse. I think it is important that any plans properly consider flood risks and how to protect local communities.
-----------	--

Thank you for taking the time to read my comments and consider the views of young people like me.

Kind regards
