### Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I strongly object.</p> <p>There is not the infrastructure to support this plan. The a227 is chaos at peak times around school hours. There is limited public transport so any additional vehicles in the area will add to this as well as increasing pollution. The proposed location near the school is particularly difficult to pass at school times due to the volume of parents dropping to next door Meopham primary. There is no provision for parking and parents park on pavements, yellow lines etc adding more houses and families to the mix would be a disaster. A serious accident is waiting to happen.</p> <p>Local businesses already suffer as I know numerous people avoid the shops in the area due to the traffic at these times.</p> <p>I invite any planner to try and drive around or park in the area around school time and the problem will be evident.</p> <p>Loss of agricultural land and erosion of rural identity are obvious other issues with this planning which is on green belt land.</p> <p>Building behind the school for children with SEN would be disruptive and noisy for long periods.</p> <p>The local infrastructure including gps and schools feel like they are already at capacity. Such a development would put pressure on these.</p>
-----------	---

Kind regards
