Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I would like to object to this housing development for the following reasons. The proposed development, like all modern developments will have inadequate parking allocation so cars will end up being parked in the existing nearby roads causing inconvenience to local people. The doctors' surgery has not enough capacity for existing patients let alone another influx on top of the other development of Rose Farm. These houses are not being built for the benefit of local people. There will be another demand on water supplies which are already stretched. More farmland being destroyed. New housing should not be built on farmland. We already have not enough food security for the country.

Kind regards
