Description of Proposed Works

Please describe the proposed works

I want to move my fence panel out to the side of the property by 1 fence panel width, around 6 foot. The side gate will remain where it is but the fence line down the side of my house and the garden will come out to include the grass area to the side of my house (stacey close side) no changes will be made to the area in front of the house only down the side. I am only planning to move the fence panel out to the include the flat part of grass and NOT the steep bank therefore I will not need to build up the land or make any other changes apart from moving the fence line. The steep part of the grass bank facing stacey close will remain on the outside of the fence line. The purpose of this is to widen my garden and side area of my house to improve storage space and ease of maintenance.- This grass area is included within my boundary line and is becoming increasingly difficult to maintain. I want to include it in my garden for ease of maintenance and so that my little boy has a larger garden to play in. There are no neighbours directly behind this fence - Furthermore I have the developers consent and all neighbours have been informed and nobody has an issue with this I am submitting this application following advice from the council regarding a number of conditions on this site. - I am aware some of the conditions and the objections by local neighbours for previous rejected plans for the site (blocks of flats etc) this in no way breaches any of the concerns raised by the council or local residents at that time. From what I can see available on the planning portal there should be no reason why this isn't possible and it's not normally something you would need planning permission for but I want to follow the right processes rather than just start work. - Please let me know if there is any further information you need.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Details of the pre-application advice received

I rang the council after the developer gave their permission re altering the house / site. I applied for pre planning advice. i was then informed that as there was alot of conditions on the planning application for the site 20161038 i should submit a pre planning application. upon further conversations, i came to the conclusion that full household planning application would be more suitable so that then everything is documented in case of any future sale of the house and so that i would only have to submit once and not do pre planning application and then potentially Household planning application on top.
