Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to the proposed application due to losing green belt land which rich in nature, we walk there regularly and there is an abundance of wildlife which would lose their natural habitat. Our native wildlife is declining rapidly due to the loss of land for them to live. As a resident I struggle daily to turn right out of Istead rise onto the A227, this would increase traffic making it virtually impossible to join the A227 during rush hour traffic. The A227 cannot take anymore daily traffic using it, the delays through temporary traffic lights and road closures cause misery every day for regular users if the road, even those peopl using busses as they are stuck in the traffic too. We cannot get an appointment at the local doctors or dentists do cannot understand how the new residents will be able to register anywhere local, they're all at capacity already. The local school is full too, I know children in my road who cannot get a space for their child despite it being the nearest school. These extra houses will cause misery to the current residents on a daily basis through extra traffic and building contractors and materials.

Kind regards
