Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Hi, Thanks for sharing the link. I would also like to raise an objection to the proposed development on The Drove Way. As a parent with two children attending Istead Rise Primary School and regularly using the local park, I am particularly concerned about the impact this development would have on safety and the overall environment for families. Increased traffic around The Drove Way would significantly raise safety risks for children walking to and from school. The park is a key space for local families, and any development that increases congestion or reduces green areas directly affects the wellbeing of the community. The proposal does not sufficiently address the strain it would place on local infrastructure, including roads, parking, and public services. The loss of natural space and disruption to wildlife would negatively change the character of Istead Rise.
-----------	--

For these reasons, I strongly object to the proposed development and ask that the application be reconsidered.

Kind regards
