Reasons for comment:

Comments: I support an environmental screening. I live [REDACTED] close to the proposed developments and currently appreciate the diverse wildlife, including wild flowers/plant life. Destroying surrounding fields upsets the balance. Bird species for instance continue to decline in numbers as well as bees/ pollinators which are essential for the food chain. Climate change in itself has created a lot of problems and destroying more natural habitats will add to the issues. The fields also help stem the flow of water on to the surrounding roads, which easily become flooded with even standard amounts of rain.

Kind regards
