Reasons for comment:	
Comments:	I believe it is of utmost importance that this environmental impact screening should be carried out. This road alone A227 has become a nightmare and continually impacted by traffic congestion accidents and works meaning we are suffering as well as tiny country lanes. No maintenance of overgrowth and these fields are vitally important in so many ways. There's no infrastructure to support these developments and green belt is being lost at an alarming rate. Such environmental survey will show very clearly the harm that will be inflicted on the area not only where they want to build but on everywhere surrounding such.

Kind regards
